

FLAT BLADE FAMILY

8X

SERIES

BEAM BLADES (FLAT BLADES)

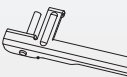

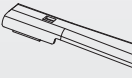

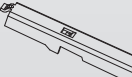

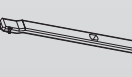

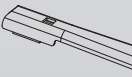

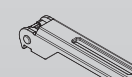

www.unipoint.com.tw

- Easy installation by end users. No complicated installation procedure by using a "Multi-functional" adapter. Just "Click in" and done
- Low profile flat blade with high wind-lift resistance
- Can fit in both OE and Conventional applications by replacing fewer adapters
- Provide superior pressure distribution and thus enhance the wiping performance
- Latest design increases the stability of flat blade and offers highly competitive pricing
- Available in 13 sizes, ranging from 14" to 28"
- Suits for all seasons and exceptional performance in severe weather conditions
